

My name is Jose Hernandez and I am an upcoming legal professional with success in assisting others better understand their options. I was born and raised in Watsonville, where I developed an interest for the legal field and how to help others navigate court procedures. I am bi-Lingual Spanish/English speaking. I developed my strong communication and public relations skills while attending U.C Davis, and I developed my legal skills at Monterey College of Law. I have worked in the service industry, I've been an intern at the public defender's office in Monterey, and a law librarian assistant. One thing that I have learned is that we all face moments of uncertainty and knowing where to turn for help is not always clear. I look forward to helping those that contact us understand what is expected and find the right type of service they are seeking.
